Priority 1 — Previous No-Shows

Patients with previous no-shows show higher subsequent no-show rates.
Action: Consider targeted, non-stigmatising engagement.

Priority 2 — Booking Lead Time

Attendance decreased as booking lead time increased.
Action: Investigate scheduling and booking practices.

Priority 3 — Reminder Strategy

No-reminder appointments showed a higher no-show rate.
Action: Review reminder coverage and channel performance.

Priority 4 — Diagnostic Tests

Largest reminder-related difference observed.
Action: Investigate targeted reminder strategies for Diagnostic Tests.
This directly connects your analysis to your action plan.
